Company profile

REMONDIS AG & Co. KG is one of the largest privately run water and environmental service companies and provides comprehensive services for more than 20 million people around the world. REMONDIS runs its own network of over 500 facilities and has branches and affiliate companies in 21 European countries as well as in China, Japan, Taiwan and Australia. Thanks to our fleet of more than 6,000 commercial vehicles and our know-how in the area of logistics systems and processing technology, we collect and recycle over 25 million tonnes of material flows every year. Based on the solid foundations of a successful company with many decades of experience, REMONDIS gives priority to fulfilling the needs of its customers and ensuring they benefit from each and every service.
